

NEWLIN MEADOWS HOA

Approved Paint Colors

Revised July 2024

NEWLIN MEADOWS APPROVED PAINT SCHEMES

Refer to the latest approved Design Guidelines for the official rules for painting and how to submit your Design Review Request (DRR).

General Guidance for Using this Book:

1. Homeowners may keep their existing paint colors if they were previously approved under a DRR or were the original colors of the home when it was built. If they were not previously approved or the member cannot prove that they were previously approved, the member will be required to select a color scheme from this book of approved schemes.
2. The color combinations in these schemes were designed to be used together to ensure color harmony. As a result, the schemes shown in this book must be used exactly as written. You may not combine color schemes, pull colors from different schemes to create a new one, or add colors that are not in the scheme.
3. Colors must be applied in the locations specified in the scheme. For example, the body color must be used on the body of the home, the trim color may only be used for trim. Members may choose whether to use the garage door color specified or paint the garage doors to match the body of the house.
4. The goal of creating a new color scheme book for our community was to ensure consistency, fairness, and ease of approval for all members. As a result, members must select from the color schemes provided and **there will be no exceptions granted to any member.**
5. When submitting your DRR, please include photos of your neighbors' homes on either side of yours and directly across the street.

BLUES AND GREENS

Change History

- Oct 2023—Added scheme 7-WH. Removed sample roof and stone colors.
- Feb 2024—Corrected color schemes (1-WH, 4-WH, 7-WH, 4-YW) to have contrasting trim to the body of the house, which is consistent with the other schemes in the book. Corrected color scheme 9-GH to remove the second trim color, which is inconsistent with the other schemes in the book.
- July 2024—Rebuilt document from scratch so that the association has an editable copy. For consistency, added optional accent and garage door colors as follows:
 - 4-CH Added Shiitake as optional accent color
 - 19-CH Added Laurel Woods as garage door and accent color, changed trim color to reserved white
 - 23-CH Added Cavern Clay as optional garage door and accent color
 - 28-GH Added Smoky Azurite as optional garage door color
 - 2-WH Added Avenue Tan as optional garage door color
 - 4-WH Added Nebulous White as optional garage door color
 - 6-WH Added Adapted Shad as optional garage door accent and Sage as optional accent
 - 1-YW Added Artifact as optional garage door and accent color
 - 2-RD Added Tin Lizzie as optional garage door and accent color
